SHOT LIST - AV PRODUCTION SCRIPT - TARGET 3-4 MIN

Technical Center Visitor Safety Demonstration

Date _____ Unit _____ Location _____

Tick the box when shot. ● CORE = script beat, must shoot EXTRA (dashed box) = optional extra angle ● Male engineer ● Female engineer ● Host / staff

Thumbnail inset = camera position seen from above, arrow = camera move

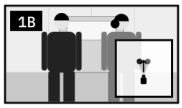

1 Welcome ENTRANCE TITLE: TECHNICAL CENTER SAFETY DEMONSTRATION

☐ 

CORE **Entrance, both engineers to camera** WS

Both engineers stand at the Technical Center entrance, facing camera. Title card goes over the lower third.

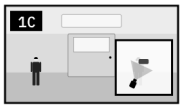

`Eye level / Static / 24mm / Tripod`

☐ 

EXTRA **Slow push-in two-shot** MS 2-shot

Same line, slightly tighter. Slow push in as the VO finishes.

`Eye level / Push in / 35mm / Slider or gimbal`

☐ 

EXTRA **Low-angle entrance and signage** WS

Low angle on the entrance doors and facility signage. Engineers walk into frame or stand small in the background.

`Low angle / Static or slight tilt up / 20mm / Tripod low`

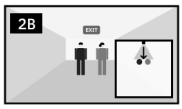

2 Facility walk-through WALK ROUTE

☐ 

CORE **Walk toward camera** MS 2-shot

Engineers walk through the facility with the camera leading them, back-pedalling ahead of them.

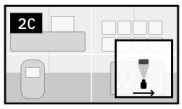

`Eye level / Track backwards / 28mm / Gimbal or Steadicam`

☐ 

EXTRA **Follow from behind** WS

Same walk, camera behind the engineers following them down the corridor.

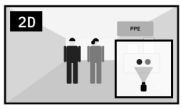

`Eye level / Track forwards / 24mm / Gimbal`

☐ 

EXTRA **Area cutaways (four inserts)** INSERTS

Four 3 second inserts: laboratory, testing equipment, pilot facility, chemical storage. No talent needed.

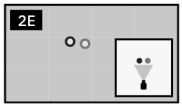

`Eye level / Slow slide / 50mm / Slider`

☐ 

CORE **Arrive at the PPE station** WS 2-shot

Both engineers stop at the PPE station. Hold on the station.

`Eye level / Static / 28mm / Tripod`

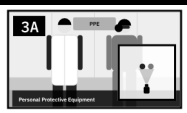

☐ 

EXTRA **High-angle route overview** WS

High angle looking down the route as the engineers walk through.

`High angle / Static / 24mm / Tripod high or pole`

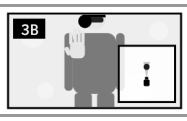

3 Personal Protective Equipment PPE STATION TITLE: PERSONAL PROTECTIVE EQUIPMENT TEXT: PPE REQUIRED IN DESIGNATED AREAS

☐ 

CORE **PPE on, two-shot** MS 2-shot

Female engineer puts on safety glasses. Male engineer shows closed-toe safety footwear and puts on a laboratory coat.

`Eye level / Static / 35mm / Tripod`

☐ 

EXTRA **Glasses going on** CU

Close-up of the female engineer's hands putting on the safety glasses.

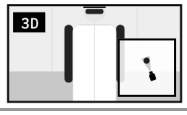

`Eye level / Static / 85mm / Tripod`

☐ 

EXTRA **Footwear insert** INSERT

Ground level shot of the closed-toe footwear. Male engineer lifts a toe to show it.

`Ground level / Slight slide / 35mm / Low slider`

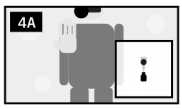

☐ 

EXTRA **Lab coat detail** MCU

Medium close on the male engineer putting on and buttoning the laboratory coat.

`Eye level / Static / 50mm / Tripod`

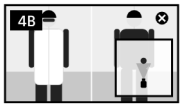

4 PPE fit and asking the host PPE STATION

☐ 

CORE **Adjusting the glasses** CU

Close-up: engineer adjusts the safety glasses for a correct fit.

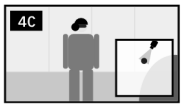

`Eye level / Static / 85mm / Tripod`

☐ 

CORE **Split screen: correct vs incorrect** MS split

Split screen. Left: correct PPE. Right: incorrect PPE (glasses on forehead, coat open).

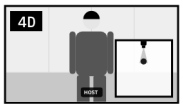

`Eye level / Locked off / 35mm / Tripod, locked`

CORE **Engineer turns to ask the host** MS OTS

Engineer turns to the host and asks a question.

`Over the shoulder / Static / 50mm / Tripod`

EXTRA **Host reverse** MCU

Reverse angle on the host as they listen to the question and nod.

`Eye level / Static / 85mm / Tripod`

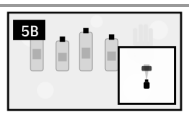

5 Chemical safety `LAB & CHEMICAL BAY  TITLE: CHEMICAL SAFETY`

CORE **Safety cabinet and "do not touch"** MS

Engineer stands beside labelled containers in a safety cabinet and raises a hand in a clear "do not touch" gesture.

`Eye level / Static / 35mm / Tripod`

EXTRA **Labels rack focus** CU

Rack focus from the engineer's raised hand to the labelled containers.

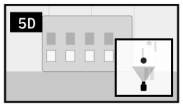

`Eye level / Rack focus / 100mm macro / Tripod`

EXTRA **The stop gesture** CU

Close-up of the open palm facing the lens, shallow depth of field.

`Eye level / Static / 85mm / Tripod`

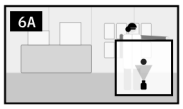

EXTRA **Cabinet bay wide** WS

Wide shot of the chemical bay with the engineer small beside the cabinet to show scale.

`Eye level / Static / 24mm / Tripod`

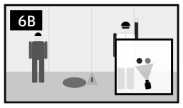

6 Equipment, samples and spills `LAB & CHEMICAL BAY  TEXT: REPORT UNSAFE CONDITIONS IMMEDIATELY`

CORE **Point, then step back** MS

Engineer points to lab equipment, test panels and samples, then steps back.

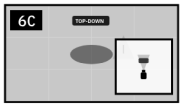

`Eye level / Static / 28mm / Tripod`

CORE **Spotting the spill** WS

Engineer spots a small marked spill and signals the host.

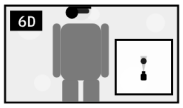

`Eye level / Static / 28mm / Tripod`

EXTRA **Spill from above** INSERT

Top-down view of the marked spill on the floor.

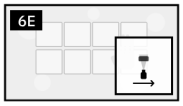

`Top-down / Static / 35mm / Tripod over the spill`

EXTRA **Engineer notices** CU

Close-up of the engineer's face as they notice something wrong.

`Eye level / Static / 85mm / Tripod`

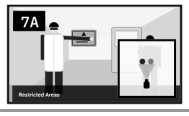

EXTRA **Test panels insert** INSERT

Close-up of a hand pointing over the test panels, stopping short of touching.

`Eye level / Slow slide / 50mm / Slider`

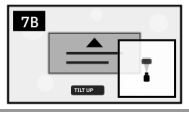

7 Restricted areas `RESTRICTED DOOR  TITLE: RESTRICTED AREAS  TEXT: AUTHORIZED PERSONNEL ONLY`

CORE **Sign, door, then walk with host** MS

Engineer points to a restricted-area sign and an access-controlled door, then walks alongside the host.

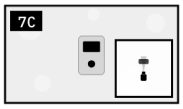

`Eye level / Static, then slight follow / 35mm / Tripod or gimbal`

EXTRA **Sign insert** INSERT

Close-up of the restricted-area sign, tilt up to the wording.

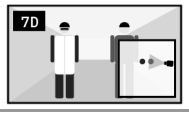

`Eye level / Tilt up / 50mm / Tripod`

EXTRA **Access reader insert** INSERT

Close-up of the badge reader showing a red light.

`Eye level / Static / 85mm / Tripod`

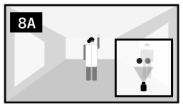

EXTRA **Walking with the host, side-on** MS 2-shot

Profile two-shot of an engineer and the host walking alongside each other.

`Eye level / Track sideways / 35mm / Gimbal`

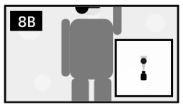

8 Separated from your host `CORRIDOR JUNCTION  TEXT: VISITORS MUST REMAIN WITH HOST`

CORE **Stop at the junction** WS

Engineer stops at a corridor junction, stays in place and raises a hand. A staff member approaches to assist.

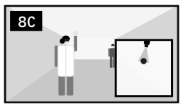

`Eye level / Static / 24mm / Tripod`

EXTRA **Raised hand close-up** CU

Close-up of the engineer waiting with a raised hand, looking around.

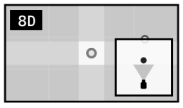

`Eye level / Static / 85mm / Tripod`

EXTRA **Staff approaches (OTS)** MS OTS

Over the engineer's shoulder as the staff member walks toward them from the corridor.

`Over the shoulder / Static / 50mm / Tripod`

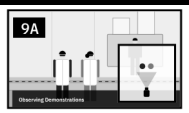

EXTRA **Junction from above** WS

High angle showing the engineer standing still at the junction of corridors.

`High angle / Static / 24mm / Tripod high`

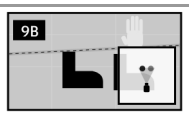

9 Observing demonstrations `DEMO AREA TITLE: OBSERVING DEMONSTRATIONS TEXT: OBSERVE ONLY - DO NOT PARTICIPATE`

CORE **Behind the safety line** WS

Both engineers stand behind a marked safety line during a live demonstration.

`Eye level / Static / 24mm / Tripod`

CORE **Pointing at the floor marking** MS low

Both engineers point to the floor marking.

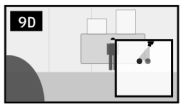

`Low angle / Static / 28mm / Tripod low`

EXTRA **Reverse from the demo side** MS

Reverse angle from beside the demo showing the engineers watching from behind the line.

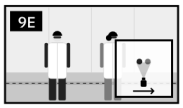

`Eye level / Static / 85mm long lens / Tripod`

EXTRA **Over the shoulder to the demo** MS OTS

Over the engineers' shoulders looking at the demo.

`Over the shoulder / Static / 50mm / Tripod`

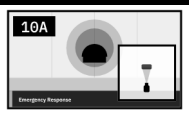

EXTRA **Slide along the line** MS 2-shot

Slow lateral move along the safety line past both engineers.

`Eye level / Track sideways / 35mm / Slider or gimbal`

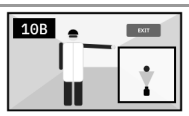

10 Emergency response `EXIT ROUTE TITLE: EMERGENCY RESPONSE TEXT: FOLLOW EMERGENCY INSTRUCTIONS`

CORE **Alarm beacon flashes** INSERT

The alarm beacon flashes.

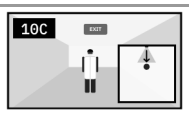

`Eye level / Static / 50mm / Tripod`

CORE **Stop and point to the exit** MS

Engineer stops immediately and points to the exit sign.

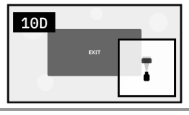

`Eye level / Static / 35mm / Tripod`

CORE **Walk calmly to the exit** WS

Engineer walks calmly toward the exit sign.

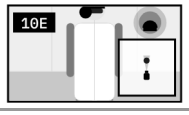

`Eye level / Track forwards / 28mm / Gimbal`

EXTRA **Exit sign insert** INSERT

Close-up of the illuminated exit sign.

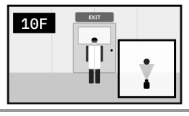

`Low angle / Static / 50mm / Tripod`

EXTRA **Alarm reaction** CU

Close-up of the engineer's face as they hear the alarm, beacon glow behind.

`Eye level / Static / 85mm / Tripod`

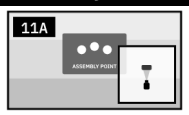

EXTRA **Through the exit door** MS

Engineer reaches the exit door and pushes through it.

`Eye level / Static / 35mm / Tripod`

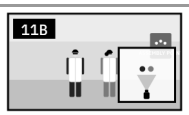

11 Assembly point `ASSEMBLY POINT`

CORE **Assembly point sign** INSERT

Assembly point sign.

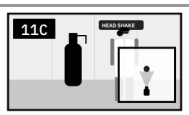

`Eye level / Static or tilt down / 50mm / Tripod`

CORE **Waiting together** WS

Both engineers wait calmly at the assembly point.

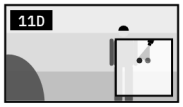

`Eye level / Static / 28mm / Tripod`

CORE **Extinguisher: do not respond** MS

Engineer shakes their head beside a fire extinguisher.

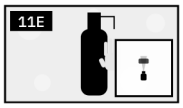

`Eye level / Static / 35mm / Tripod`

CORE **Report to staff** — MS OTS

Engineer reports to a staff member.

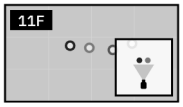

`Over the shoulder / Static / 50mm / Tripod`

EXTRA **Extinguisher insert** — INSERT

Close-up of the extinguisher with the engineer's hand pulling back from it.

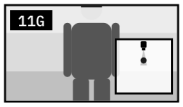

`Eye level / Static / 85mm / Tripod`

EXTRA **Group at the assembly point (high)** — WS

High angle on the group waiting at the assembly point.

`High angle / Static / 24mm / Tripod high`

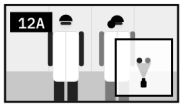

EXTRA **Staff reaction** — CU

Close-up of the staff member listening to the report.

`Eye level / Static / 85mm / Tripod`

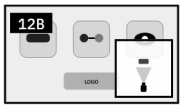

12 Closing ENTRANCE TEXT: SAFETY IS A SHARED RESPONSIBILITY

CORE **Both engineers to camera** — MS 2-shot

Both engineers face camera. Hold while the three icons appear in turn.

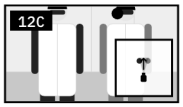

`Eye level / Static / 35mm / Tripod`

CORE **End card plate** — GFX PLATE

Clean background for the three icons (PPE, Stay with your host, Observe only) and the company logo.

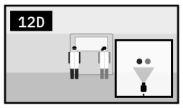

`Eye level / Static / Post`

EXTRA **Slow push on the pair** — MCU 2-shot

Slow push in on both engineers as the VO says thank you.

`Eye level / Push in / 50mm / Slider or gimbal`

EXTRA **Wide pull-out** — WS

Wide shot pulling back from the engineers to reveal the entrance.

`Eye level / Pull out / 24mm / Gimbal or dolly`

EXTRA **Empty entrance plate** — WS

Locked-off shot of the entrance with nobody in it, about 10 seconds.

`Eye level / Static / 24mm / Tripod`
